Some Questions

The following questions are to inspire you. Please determine what is important to you and your community and formulate your questions before going to your meeting.

- What steps have you taken in the past to support development of local, provincial, or federal food sovereignty policies?
- What do you believe [your province] and Canada need to do to ensure the future of Canada's food system?
- What will your party do to ensure that all government departments, public bodies and local authorities are able to make a positive choice in developing a national food policy for Canada?
- How will you ensure that your council supports/continues to support the development of local and national food sovereignty policies?
- Would you advocate for the municipality to work with other levels of government on food security issues?
- What issues do you see as being a priority for this region?
- Would you support a municipal food purchasing policy embedding a 10% annual increase of foodstuffs served at municipal outlets/regional organizations (schools, hospitals, etc.) being produced within the region?
- Would you support a Regional Food Policy Council? What do you see as being their most important task?

Questions I want to ask my MP
